Two men sitting across a table with microphones and recording equipment during a podcast-style interview

Quick answer Hedy's Journalism Mode is an AI assistant for journalists, podcasters, and documentary filmmakers. During interviews, it suggests follow-up questions, flags inconsistencies, identifies story angles, and provides real-time transcription. After the session, it generates summaries with key themes and follow-up opportunities. Free for 5 hours/month, $12.99/month for unlimited .

Your New Partner in Storytelling

Let's face it – journalism isn't just about asking questions. It's about asking the right questions, fact-checking on the fly, and weaving complex information into stories that resonate with readers. That's exactly why we've trained Hedy to think like a journalist, helping you:

- Generate insightful follow-up questions that dig deeper into the story - Identify inconsistencies in responses during interviews - Spot unique angles that make your story stand out - Keep track of complex narratives and maintain clarity - Transform technical jargon into reader-friendly explanations

Who Can Benefit from Journalism Mode?

While designed with journalists in mind, Journalism Mode is perfect for anyone who needs to conduct compelling interviews or moderate discussions:

• Podcasters Elevate your interviews with more engaging questions, spot unique angles in real-time, and never miss a follow-up opportunity. Whether you're hosting a daily news podcast or a long-form interview show, Hedy helps you create more dynamic conversations.

• Moderators Keep panel discussions on track, balance participant contributions, and generate thought-provoking questions that spark meaningful dialogue. Perfect for both live events and recorded sessions.

• Documentary Filmmakers Capture better interviews with real-time guidance, maintain narrative threads across multiple sessions, and identify compelling story angles as they emerge.

• Research Interviewers Whether you're conducting academic research or market research, get more valuable insights from your interviews with structured yet natural questioning techniques.

How Journalism Mode Works

Just like our other session types, using Journalism Mode is seamless. Before your interview or press conference, select "Journalism" as your session type. As you conduct your interview, Hedy listens and analyzes the conversation in real-time, ready to assist with:

Interview Techniques

Need the perfect follow-up question? Want to rephrase something to be more open-ended? Hedy suggests targeted questions that help you uncover the full story.

Fact-Checking Support

Hedy helps you track statements made during interviews and flags potential inconsistencies, making it easier to verify information on the go.

Story Development

Whether you're looking for a unique angle or trying to add a human interest element, Hedy helps you identify compelling narratives that will engage your readers or listeners.

Clarity and Context

From explaining complex jargon to summarizing key points, Hedy ensures you never lose track of the bigger picture.

Essential Tools for Modern Media

Beyond real-time assistance, Hedy provides features that streamline your workflow:

Real-Time Transcripts

Say goodbye to frantically scribbling notes or reviewing hours of recordings. Hedy provides real-time transcripts of your interviews and discussions, letting you focus on the conversation instead of note-taking. Access your transcripts instantly, making quote verification and content creation more efficient than ever.

Smart Summaries

After each session, Hedy automatically generates a comprehensive summary highlighting: - Key points and major themes - Potential story angles - Follow-up opportunities - Action items and deadlines mentioned

Post-Session Chat

Need to double-check a detail or explore an angle you missed? With Post-Session Chat, you can revisit any past interview and ask Hedy questions about the content. Whether you're fact-checking a quote or exploring new angles, your entire interview history is just a question away.

The Future of AI-Assisted Journalism

We believe that AI should enhance, not replace, human expertise. Journalism Mode is designed to be your intelligent assistant, helping you focus on what truly matters – telling important stories that inform and engage your audience.

"Journalism is all about asking the right questions and connecting the dots," says Julian Pscheid, founder of Hedy AI. "With Journalism Mode, we're giving media professionals a powerful tool to help them do what they do best – uncover and tell compelling stories."

Get Started Today

Have you tried Journalism Mode? Share your experience with us on social media or drop us a line at feedback (at) hedy.bot. We'd love to hear how Hedy is helping you create better content!

Frequently Asked Questions

How does Hedy help journalists during interviews?

Hedy listens in real time and suggests targeted follow-up questions, flags inconsistencies in responses, and identifies unique angles as the interview unfolds. It transcribes the conversation as you go, so you can focus on listening and probing — not on typing notes.

Can I use Hedy for podcast interviews?

Yes. Podcast hosts use Hedy to surface engaging follow-up questions, spot interesting angles in real time, and never miss a follow-up opportunity. The transcript is also useful for show notes, episode summaries, and post-production fact-checking.

Does Hedy fact-check during interviews?

Hedy tracks statements made during the interview and flags potential inconsistencies — for example, if a guest says one thing early on and contradicts it later. It's not a substitute for thorough verification, but it surfaces signals worth investigating before publication.

How accurate is Hedy's transcription for journalism work?

Hedy uses on-device speech recognition with high accuracy across 30+ languages. Real-time transcripts are available during the call; cleaned, speaker-labeled transcripts are generated post-session. For quote verification, the full transcript is searchable and timestamped.

Can I revisit past interviews and ask Hedy questions about them?

Yes. Hedy's Post-Session Chat lets you query any past interview — fact-check a quote, explore an angle you missed, or pull a specific moment by topic. The Topics feature also groups related interviews so you can ask cross-session questions across an entire investigation.
