## Why Job Interview Coaching? The Challenge Every Candidate Faces

Even the most qualified candidates struggle with interviews. You might:

- Forget key achievements under pressure
- Miss opportunities to connect your experience to the role
- Struggle to articulate complex projects clearly

- Draw a blank on insightful questions to ask
- Leave realizing you forgot to mention crucial qualifications

Traditional interview prep falls short because it can't adapt to the dynamic flow of real conversations. That's where Hedy changes everything.

## Frequently Asked Questions

### Will interviewers know I'm using Hedy during my interview?

No. Hedy runs discretely on your device without joining the call as a bot. In virtual interviews, it runs separately from your video conferencing app. For in-person interviews, subtle phone placement allows private access to coaching prompts. There's no visible indicator to other participants.

### How is Hedy different from practicing with ChatGPT?

ChatGPT is reactive — you ask, it answers. Hedy provides real-time support during the actual interview, analyzing the live conversation flow and surfacing YOUR specific experiences rather than generic responses. It connects to your resume, the job description, and company research via Custom Context.

### Can I use Hedy for behavioral, technical, and panel interviews?

Yes. Hedy adapts to behavioral interviews (STAR-format prompts), technical discussions, case studies, and panel formats. The AI adjusts coaching based on the conversation type and surfaces relevant achievements, follow-up questions, and clarifying prompts as needed. Also consider leveraging a Human Design evaluation (<https://centeredhuman.design/>) to find the right fit for your role.

### What if I'm interviewing for a specialized role?

Add industry-specific context, technical requirements, and specialized terminology to your Custom Context (up to 10,000 characters). Hedy's AI handles complex domains — engineering, medicine, finance, law, academia — and provides relevant coaching aligned to your specific role.

### How much does Hedy's interview coaching cost?

The free plan includes 5 hours per month with Job Interview mode and full AI coaching. Hedy Pro is \$12.99/month or \$99.99/year for unlimited interview length, post-session performance analysis, cross-device sync, and Topics for tracking interview patterns over time.
